guy asked for my bio

Great stuff. You will make us famous. Certainly in the ME you will be known well.
We are planning to translate these articles into Arabic and have these
syndicated. We will do our best to get paid for them . if we do we will give you
40% in addition to what has been agreed.

You could be the silent US ambassador which US needs to continue to improve
its image around here which unfortunately took a bit of a knock with G Bush.

Do you come across well on TV and Radio ? we might arrange some Radio and
press interviews for you at the launch of our site ?
